PRELIMINARY AMENDMENT

In response to the action mailed November 6, 2002, please amend the application as follows:

In the claims:

Please amend claims 1-5, 9, 15, 16, 21-23, and 29, as follows:

(Twice Amended) 1. A travel planning system comprises:

a computer system for executing:

a scheduling process to provide a set of instances of transportation that satisfy a user

query;

a faring process that determines fares valid for at least some of the instances in the set of instances of transportation; and

an availability process that uses results from a first source of seat availability information for a mode of transportation to determine a set of available instances of transportation;

determines quality properties of the availability information; and

determines, based on the quality properties, whether the first source of availability information is reliable, and if the results are not reliable, the availability process executes a second set of seat availability queries to the first source or a different source of seat availability
